

The powerful and versatile Eurocopter AS365N Dauphin helicopter is ideal for VIP, business and corporate helicopter charter.

With its retractable landing gear the aircraft has a top speed of 175mph, almost three miles per minute.

The aircraft offers a seating capacity of up to eight passengers in its large roomy cabin. This helicopter is ideal for larger groups of people and with the advantage of twin engines it can operate from heliports located within cities.

PDG Helicopters operates 2 of these Dauphin helicopters in matching livery.

- Up to 8 passengers
- Twin gas turbine engines
- Single or dual pilot
- 175 mph cruise speed
- 4 Passenger doors
- Luggage compartments
