

Eurocopter AS350B1/B2 Squirrel

Seating five passengers in comfort, this helicopter is perfect for the rapid transportation of executives or key personnel.

The power and size of the helicopter also makes it ideal for a vast range of tasks including under slung load lifting, aerial filming, power line inspections and aerial surveys.

With its reduced noise footprint at low level, it significantly reduces noise pollution to the public.

Cruise speed is 120mph, while its lifting capacity is 1000kg (B1 & B2), making this an extremely versatile helicopter.

- **Up to 5 passengers**
- **Single gas turbine engine**
- **Single or dual pilot**
- **120 mph cruise speed**
- **2 Passenger doors**
- **Luggage compartments**
