To Whom it May Concern

Reference for Wrenco (Contractors) Ltd

Wrenco have competitively tendered for various types of civil engineering works since 1995.

During this period, they have been successful in submitting tenders for nine contracts ranging in value at present day costs from £15k - £450k.

Wrencos' standards for site management, quality of workmanship and client liaison has always been to a high standard.

On the basis of their past performance, I would therefore have no hesitation in inviting them for other tenders for the trust.

Yours faithfully

P B TAYLOR
Estates Service Manager
