Dear Ken

WIDNES & TOWER HILL PROJECTS

Just a note to express my sincere gratitude for the way you have proactively engaged with our company in the true spirit of supply chain partnering, your commitment to programme and progress has been exemplary.

It really goes without saying that we look forward to a continued good working relationship throughout 2005. It is my intention to hold a workshop meeting towards the end of January 2005 to look at ways in which we can improve upon our ways of working and the potential long-term relationship.

All the best over the festivities.

Yours faithfully

 **JOHN C. COLLIER**
